Hey! Are you literate? THEN READ THIS!

This is Janky Tanks! The craziest local multiplayer combat action game IN THE WEST! ALSO THE EAST!

Did we say multiplayer? More like multi-SLAYER! This game combines simple controls with endless action. Blow up your friends. Blow up your enemies. Blow up yourself, because this game features ROCKET JUMPS!

This game is stupid easy to play. Here's the tutorial: knock your opponents off the screen. DONE!

Why is it "janky"? Because it's bloody ridiculous. Play a few rounds and see - this game will make you yell expletives at your friends and loved ones. In a good way.

This game uses CONTROLLERS. Xbox, Playstation, or whatever dodgy third party awesomeness you've got. Plug it in and PLAY!

Featuring the following features:

-
- 1 - 8 PLAYERS! YES I SAID 8!!!
 - CHOOSE YOUR COLOR!
 - TWO CONTROL SCHEMES!
 - LOTS OF LEVELS, WE THINK
 - WALL JUMPS!
 - POWERFUL POWERUPS!
 - HORNS! THE KIND YOU HONK!

What are you waiting for? Seriously, are you even still reading this? I've run out of things to say, so I'm just going to end this description with an all-caps:

Fun game if you have friends to play it with. Not a lot of content though.. Janky Tanky Fun!

Also, not a lot of 8 player mayhem local games out there. This and Knight Squad have both been really fun!. Fun game but haven't seen an update since May 25th , 2015.. Felt obligatory to write a proper review for this game.

This is a good game, just not centered to the most common steam users out there.

Couple things to note:

First - You NEED a controller for it. No exceptions.

Second - you need friends, controllers for each of them, preferably a coach and a big TV.

Third - like Gang Beast, chaos is a significant element in this game. Much more fun with 8 players than 3 or 2.

Many reviews diss this game for not suiting their need without justifying it's main audience is couch gaming.

So, here goes the actual review:

Gameplay mechanics are good and simple. The UI could use clearer explanations for sure, but everyone knows the control in a minute.

Map V gamemode variety is just enough or at bare minimum, repetitive yes, but doesn't bother us.

Game pacing is **very** good, where the balance between quick reflexes and tactics are strikingly neat.

One suggestion though - if winning and losing matters more and provide an incentive to players, this game would be fantastic for friends to get together and just casually battle each other. Something like a winner's screen with summary of funny stats would suffice.

Already a very fun game consider the price, just need some more polish here and there.. Janky Tanks has a similar gameplay to Smash Bro's - do damage, knock people off. Higher damage = you fly farther!

But with indestructable tanks!

Played the demo, and wound up playing the demo for over an hour with a few people. Well worth the \$2.50 I got on sale.

For \$5, I think I'd like to see a little bit more, maybe at least 1-2 more modes?

Even still, lots of fun and I am keen to see how it develops further.

- Hot Tip: Set the water level to rise in 10 - seconds, and it becomes a king-of-the-hill panic for higher ground. It becomes more about how well you control your tank, as opposed to knocking others off!
